

 **The new era of bottling & packaging**
Sacmi Beverage -> ACMI

A new era: a super ACMI

A Super ACMI is created

Thanks to the integration of Sacmi Beverage technologies into ACMI, two new divisions have been created under the ACMI brand, which join the division dedicated to complete systems - *Bottling and Packaging Systems*

Technology and know-how

Technology, know-how, territory

The ACMI Blowing & Filling (formerly Sacmi Parma) and ACMI Labelling Solutions (formerly Sacmi Verona) production units will continue to operate on the same territory (Parma, Verona and Nanhai).

A complete range

A single supplier

ACMI presents itself to the market as a main contractor for turnkey bottling and packaging projects.

Blowers, fillers, CIP and mixer, combi, triblock, form-fill-seal

Labellers, bag-in-box

Design and Engineering of complete lines/end of line/ repacking lines.

Depalletisers, palletisers, Twisterbox systems, decraters, craters, cartoners, shrink wrappers, tray formers, wrap-around, horizontal end load cartoners, multipack machines, handle applicators, multifunction robots, stretch wrappers, conveyor belts and conveying systems.

Advantages for customers

A new global player

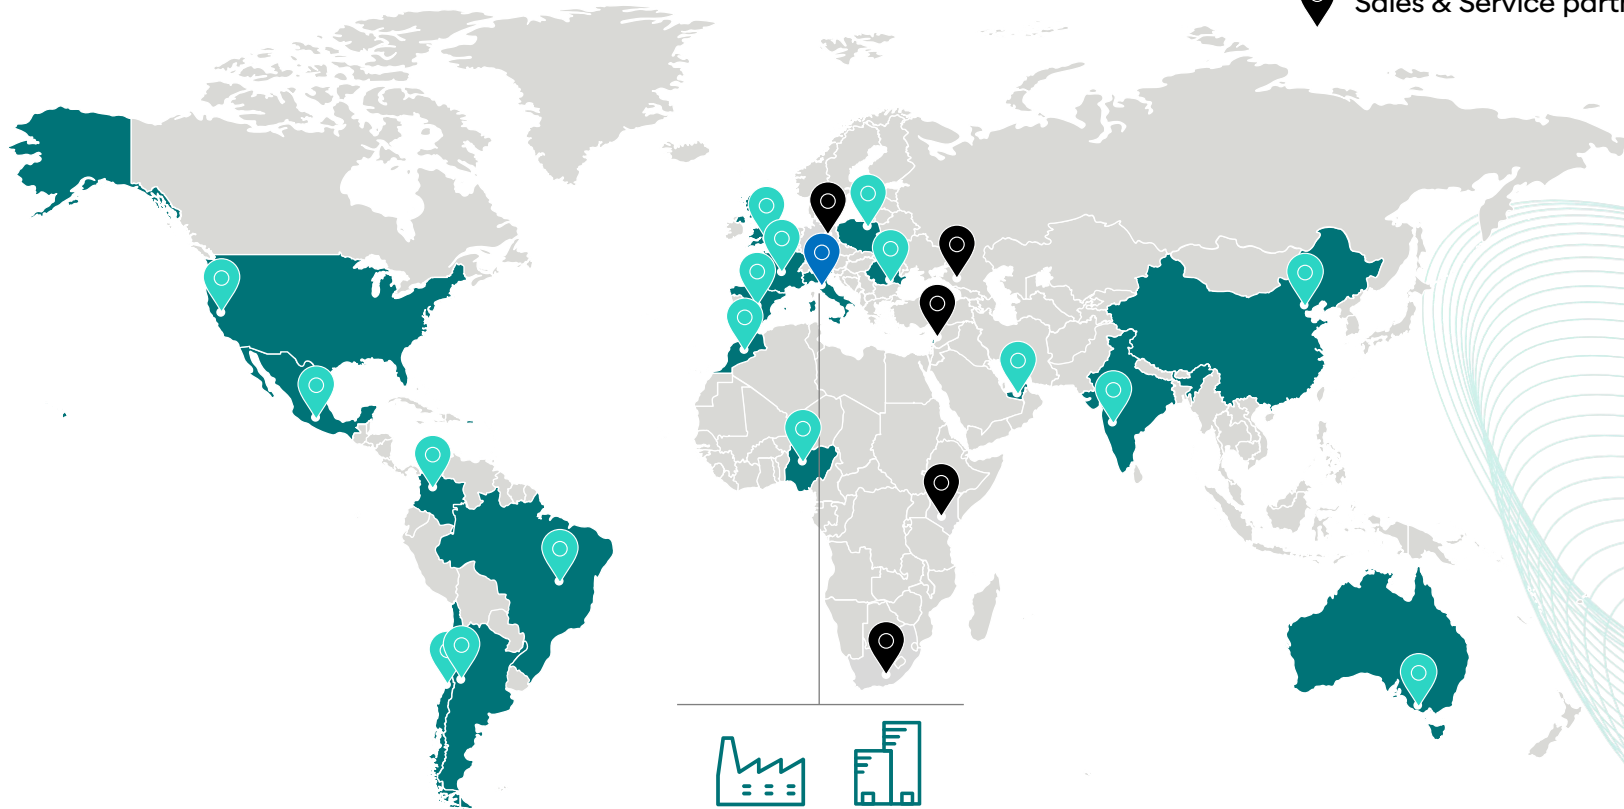

The integration of Sacmi Beverage technologies into ACMI, made possible thanks to the industrial project promoted by Omnia Technologies, allows the creation of a global player with **100% Made in Italy technology** capable of competing on international markets thanks to:

- **Cutting-edge technology** (recognised by all major international brands)
- **High positioning of the ACMI brand**
- **Flexibility and tailor-made solutions**
- **Experience with complex projects (line engineering) and global references**
- **Extensive sales and service network**
- **High attention to customer service**
- **Sustainable solutions** (energy saving and environmental impact of materials)
- **A single interlocutor for the customer, from process to palletising** (thanks to Group synergies)

Sales network

A great opportunity

-  Productive Units
-  Omnia Commercial & Service Offices
-  Sales & Service partner

36 Productive Units
24 Commercial & Service Offices

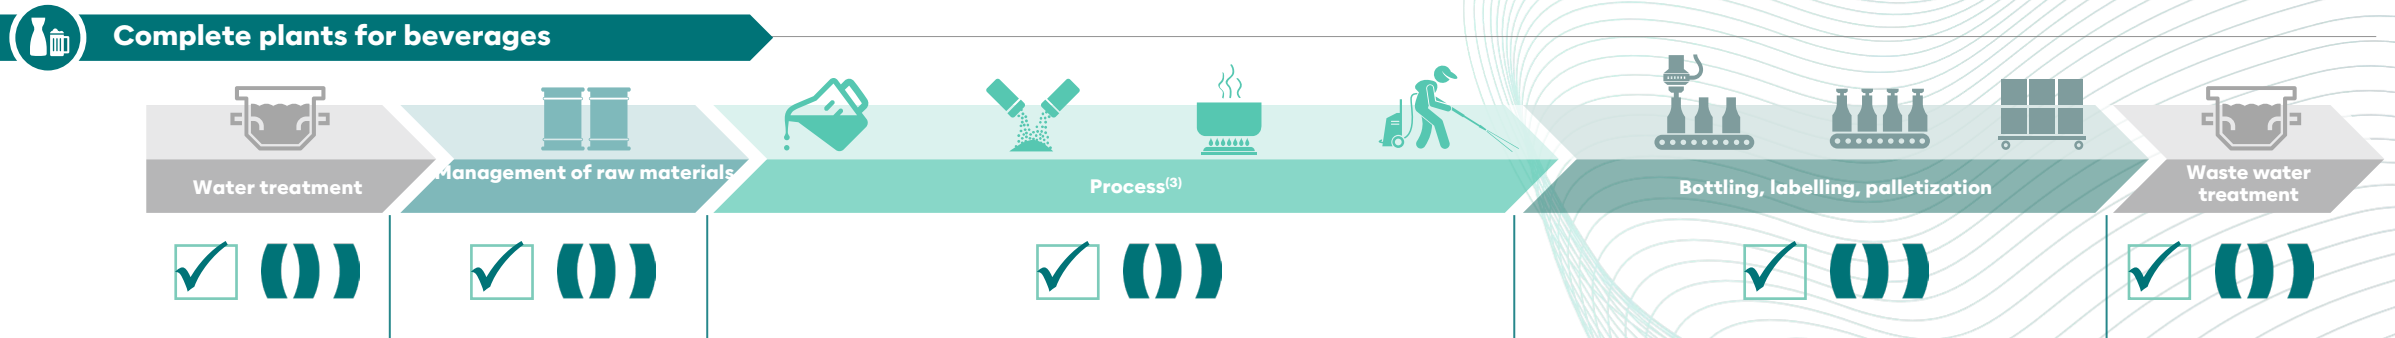

The merging of the sales and service networks of **Sacmi Beverage, ACMI** and **Omnia Technologies**, allows «Super» ACMI to serve the main geographical areas today:

- **Customer proximity** is guaranteed by a team and a consolidated network of local partners
- **Remote assistance** via IoT technology

Integration with Omnia Technologies

A single interlocutor for the customer

The new **Beverage Packaging** division will benefit from the integration with the skills of other companies in the Omnia Technologies Group through an active partnership with TMCI, Della Toffola, SAP Italia and Blendtec.

Integrated offer: from process to packaging

	Wine	Spirits	Beverages & Beer	Dairy	Pharma & Cosmetics
Processing Equipment	<p>Crossflow Filtration Machines</p> <p>Grape Crusher</p> <p>Tanks & Autoclaves</p>	<p>Carbon Neutral Distilleries</p> <p>Cross Flow-Filtering Systems</p>	<p>Stabilization Systems</p> <p>Brewhouses</p> <p>Syrup room</p>	<p>Pasteurizer</p> <p>Cheese Plants</p> <p>Oils and Fats Pasteurizers</p>	<p>Capping Machines</p> <p>Filling Machines</p>
