

ROCKET

Less plastic, more future.

Rocket combines speed and sustainability, cutting impact by up to 62% with kraft paper.

- Single platform for film or kraft paper applications (not dual-use)
- Compact footprint with automatic pre-stretching unit changeover
- High speed: up to 160 half-pallets/hour with film, 100 with paper
- Electronic film pre-stretching over 400% for maximum savings

ACMI makes wrapping sustainable. Discover the future of green packaging!
